Budi Setiawan

***Coordinator of Coral Reef Restoration Program in Belitung
(Project Partnership of GEF SGP & UNDP in Belitung)***

Head of NGO-KPLB

Land : 2.293,69 Km2 (7.20%)
Ocean : 29.606 Km2 (92.82 %)
Populations : 145.432
Fishermen : 68.353 (47 %)

WHY ARE LOCAL PEOPLE DAMAGING THE CORAL ?

ECONOMIC FACTOR:

1. Poverty

Fact :

(Local) People deeply understand function of coral and the regulation

WHY ARE LOCAL PEOPLE DAMAGING THE CORAL ?

ANTROPOGENIC FACTOR :

1. Destructive Fishing Method (such as cyanide poison, trawling, fish bomb, etc)

Project Strategy to Conserve Coral Reef

1. Economic Approach such as Community-Based Ornamental Fish Trading

Project Strategy to Conserve Coral Reef

2. Be Part of The Community

Project Strategy to Conserve Coral Reef

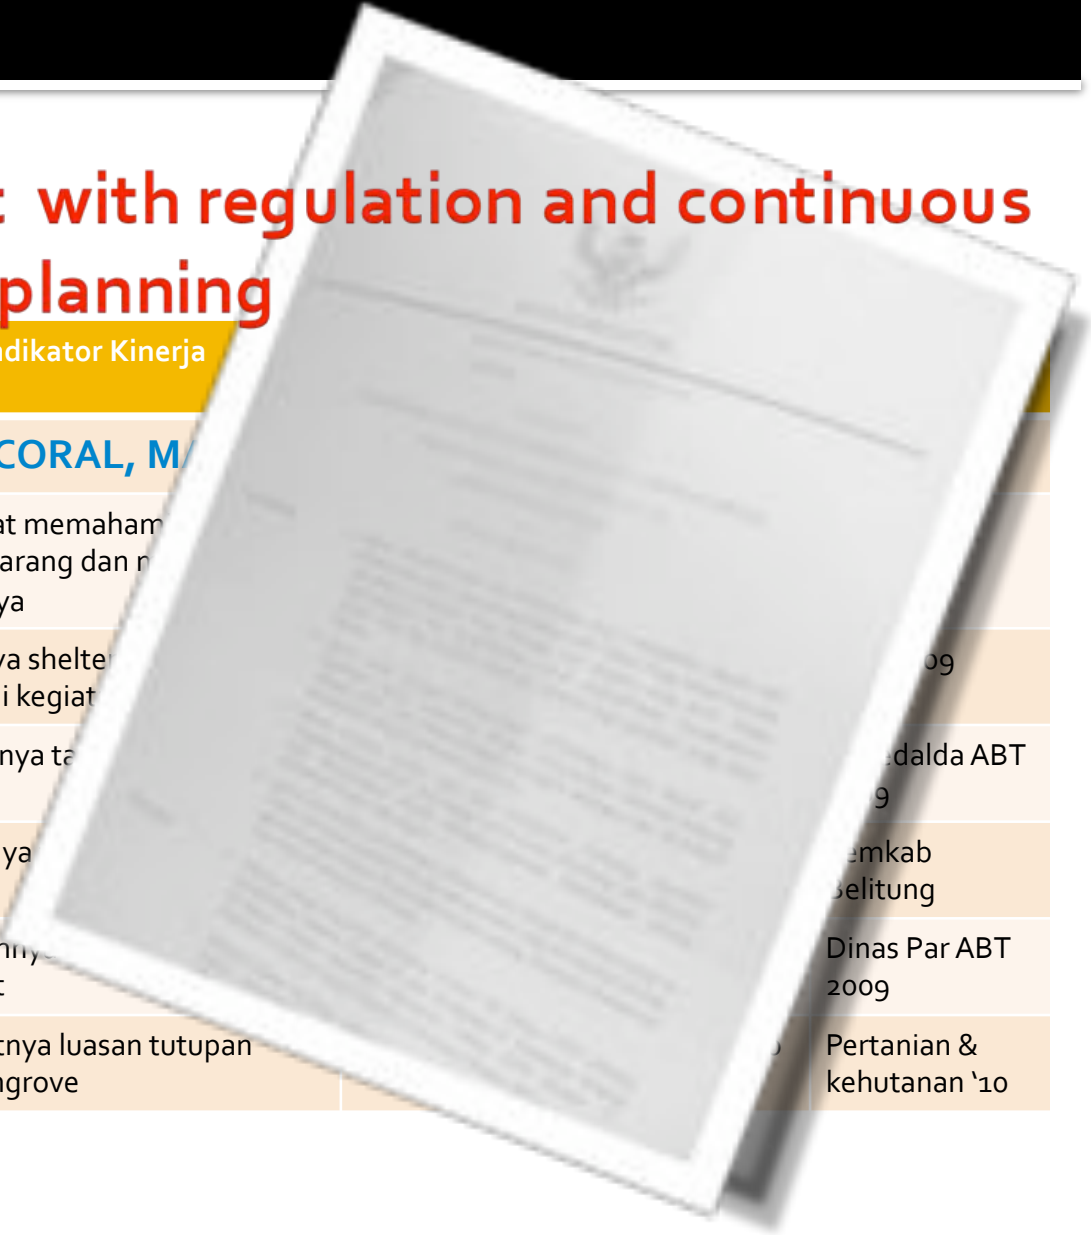

3. Synergy Movement (NGO, Government, Private, and Community) to raise project's sense of belonging from all stakeholders

Project Strategy to Conserve Coral Reef

4. Supported the project with regulation and continuous mid as well as long term planning

No	Kegiatan	Indikator Kinerja
II.	PENGEMBANGAN POTENSI BAHARI (CORAL, MANGROVE, DAN PERAIRAN)	
	Pendampingan kegiatan pengawasan pengelolaan dan rehabilitasi terumbu karang	Masyarakat memahami terumbu karang dan menjaganya
	Pembangunan shelter pengendali program terumbu karang	Tersedianya shelter pengendali kegiatan
	Rehabilitasi terumbu karang melalui transplantasi terumbu karang	Terbentuknya terumbu karang 500m2
	Penetapan Kawasan Konservasi Perairan (KKP)	Terciptanya kawasan konservasi
	Pengadaan fasilitas penyelaman	Bertambahnya wisata laut
	Pengendalian DAS & pengembangan hutan mangrove	Meningkatnya luasan tutupan hutan mangrove

Terima kasih.....
