Empowerment

Governance
How we work

Project Grants Facility

350 projects to date

Cross cutting strategies

Capacity Development

Knowledge Management and Communications

Gender Integration

Private Sector Engagement

MFF Governance Platform

Regional Steering Committee

National Coordinating Bodies

Govt, Civil Society, Private Sector
MFF, SDG14 and the Blue Economy

Wide variety of projects contributing to SDG14 and inclusive of Blue Economy principles

Just to name a few;

• Community waste management
• Co-management for sustainable use and conservation
• Establishing MPAs
• Developing sustainable management of fisheries, aquaculture and eco-tourism
• Inclusive approaches establishing partnerships between diverse stakeholders
Mangroves and Blue Economy

Ecosystem Goods and Services

Provisioning (e.g. food, fuel, timber)

Regulating and Supporting (e.g. climate regulation, coastal protection)

Cultural Services

e.g. education, heritage, tourism
Mangroves and Co-management

A process based management and governance approach

Management – **what to do**
Governance – **who decides what to do**

Decision making powers, rights and responsibilities shared between multiple stakeholders
Clam collectors, Xuan Thuy NP, Viet Nam
Mangrove restoration, Gabura, Bangladesh
Lessons Learned, Co-management

• Highly context specific
• Legal option for co-management must exist
• All stakeholders must support the principles of joint-governance and adaptive management
• Community members must depend of the target area for their livelihood – direct incentive
• Sustainable financing
Private Sector Engagement in Coastal Management

- Business practices influenced for improved stewardship of coastal ecosystems as well as generating social impacts for natural resource-dependent communities
- Direct engagement in MFF structures
- Community-based resources management and establishment of small-scale sustainable businesses
- Influencing supply chains

Building the business case: Policy, Awareness and Influence
Marriott partnership activities

Mangrove restoration

7 ha reforested

Sustainable seafood sourcing

USD 45,000

Local small business

USD 30,000
