at the Bangkok International Trade & Exhibition Centre (BITEC), Bangkok, Thailand

SECOND ANNOUNCEMENT

ASEAN
Fisheries and Aquaculture Conference and Exposition 2016: ASEAN Seafood for the World

& 11th Asian Fisheries and Aquaculture Forum (11AFAF) and Exhibition: Asian Food Security for the World
A concurrent three-day international scientific conference will be organized by
Thailand Department of Fisheries, the Asian Fisheries Society (AFS), Southeast
Asian Fisheries Development Centre (SEAFDEC), Network of Aquaculture Centres
in Asia-Pacific (NACA) and partners at the same venue from 3rd to 7th August 2016. About
1,000 participants are expected to attend the Conference. Invited speakers from around
the world will share their experiences and lessons-learned in fisheries and aquaculture.

**Major Themes of the Conference**

**Theme 1: Governance**
To include legal/policy frameworks, planning and compliance for both aquaculture and capture fisheries, responsible infrastructure.

**Theme 2: Education & training**
To include International Symposium on Aquaculture and Fisheries Education (ISAFE) recommendations, education and training needs in Asia, innovative and new education, knowledge exchange.

**Theme 3: Sustainable intensification of aquaculture**
To include 5th Cage Culture in Asia outcomes and recommendations, feeds & nutrition (especially fish meal issues), breeding & genetic selection, GMOs, hatchery technology, responsible aquaculture (environment), aquaculture certification, social and economic dimension, disease management, DAA overview, biotechnology.

**Theme 4: Response to Impacts of climate change**
To include impacts and responses to climate change in both aquaculture and capture fisheries/biodiversity, building resilience of fishing/aquaculture stakeholders, disaster management.

**Theme 5: Sustainable fisheries**
To include both small scale artisanal and large scale industrial marine and inland, stock enhancement, culture-based fisheries, biology/ecology of target species, stock status, management, social/economic considerations and major issues including IUU fishing, by-catch and subsidies.

**Theme 6: Seafood, post-harvest technology and food safety**
Processing, products, biotechnology, food safety standards, compliance and certification.

6th Global Symposium on Gender in Aquaculture and Fisheries (GAF6)
To include promoting a gender balance, the role of women in aquaculture and capture fisheries, social and economic issues.
